END MALE VIOLENCE AGAINST WOMEN

Join us in Jubilee Library to meet organisations around the city who are working to support people experiencing domestic abuse, sexual violence, and stalking. You can learn what they do and how you or a loved one can get help.

Violence against women and girls doesn't come out of nowhere.

It starts with "Just a joke." "Just a bit of banter." "Just boys being boys." We've all heard the excuses.

If we keep laughing it off or saying nothing, we're helping to make it seem like it's okay.

You don't need to make it a big deal. Sometimes it's as simple as saying, "Come on, leave it," calling out sexist content, or speaking up when a group chat goes too far.

If nobody challenges it, nothing changes.

It takes all of us.
